I'm interested in waiting to see what replacement info is going to go live at those sites.

**Subject:** Laws and Regulations Channel May Link check

Hi Caryn and Judy,

As I was doing my monthly link check for the Laws and Regulations channel, I realized we have a couple of climate change links that we need to decide what we should do with. The links to the

Climate Change Website: Regulatory Initiatives on the Regulatory Topic homepage, and the Cross-cutting issues page lead to a “this page is being updated” page. Should we keep it as is? Should we remove them? This link is the only one under the Climate Change section of the Cross-cutting Issues page, so if we removed it, we might want to remove the whole section.

Thanks,

Kari
